

A GARDEN OF VERSES

Whether the pilot of your flight of imagination is Peter Pan or Harry Potter, whether your power plant is Robert Louis Stevenson or Robert Frost, join us on a flight of fancy. Awaken your memories and the mind of a child by selecting a poem or piece of artwork and have it installed along the Garden of Verses. We can accept any piece of work provided it measures no more than 8.5 by 11 inches.

The Garden of Verses is located along the rope line walkway in Phase III of the Woodland Walkway. The walkway ambles through a shade garden of indigenous plants. It rises to a wheel chair and stroller accessible deck featuring a train engine sculpted from cedar. The engine and a sculptured teddy bear are reminders of a two-year old whose laughter and joy were tied to a train engine. The O'Neil family sponsored the train. Liam's train and teddy are for all to enjoy. The boardwalk artist, Mr. Reed Hayden, captured the essence of his youth and laughter. Liam's Train, was dedicated on Saturday, May 14, 2005.

For a \$300 donation to the Cape Cod Horticultural Society (CCHS) you'll provide joy to little ones as you recall poems from your own past.

Each poem is engraved in black on beige background with the sponsor's name. The plaque (which measures 9 X 12) is bolted to an aluminum plate and is angle mounted on a Walkway post. To post a poem, please send your \$300 check made out to "CCHS" and send to CCHS, PO Box 934, Osterville, MA 02655. Please attach a copy of the poem you have chosen.
